

Early Journal Content on JSTOR, Free to Anyone in the World

This article is one of nearly 500,000 scholarly works digitized and made freely available to everyone in the world by JSTOR.

Known as the Early Journal Content, this set of works include research articles, news, letters, and other writings published in more than 200 of the oldest leading academic journals. The works date from the mid-seventeenth to the early twentieth centuries.

We encourage people to read and share the Early Journal Content openly and to tell others that this resource exists. People may post this content online or redistribute in any way for non-commercial purposes.

Read more about Early Journal Content at <http://about.jstor.org/participate-jstor/individuals/early-journal-content>.

JSTOR is a digital library of academic journals, books, and primary source objects. JSTOR helps people discover, use, and build upon a wide range of content through a powerful research and teaching platform, and preserves this content for future generations. JSTOR is part of ITHAKA, a not-for-profit organization that also includes Ithaka S+R and Portico. For more information about JSTOR, please contact support@jstor.org.

INDEX TO VOL. XXVII, YEAR 1864.

	PAGE
ABERDEEN, statistics of (see <i>Valentine</i>)	357
criminal statistics of, for twenty years 1843-63	413-21
AGRICULTURAL POPULATION of England and Wales, decrease of, 1851-61 (see <i>Purdy</i>)	388
see <i>Population</i> .	
AGRICULTURAL STATISTICS. Example of Mr. Caird's method of taking "typical districts"	276
— want of in England	466
see <i>Population</i> (Agricultural).	
AMERICA (CENTRAL BRITISH). Commercial Progress and Resources of (see <i>Hind</i>)	82
ditto, history of, to 1858	82-6
ARMIES. Comparison of the organization and cost in detail of the English and French (see <i>Sykes</i>)	1
<i>table</i> of effective strength of English and French	3
administration, staffs, &c., of ditto	7-8
comparative <i>tables</i> of ditto	26-69
European, comparative statistics	128
ARMY (BRITISH). Returns of sickness-rates for 1863	434
in India, "report on the sanitary state of," reference to its contents	579
ARTILLERY, excess of in English army	4
AUSTRALIA, statistics of crime in (see <i>Westgarth</i>)	505
area and population of the seven colonies of Australasia	505
inequality of the sexes in	518
BAINES (Mr. E.). Extracts from his speech on the diffusion of cheap literature in England	410
BANK OF ENGLAND.	
weekly account of the issue and banking departments:	
Fourth quarter, 1863 . 163 Second quarter, 1864 . 457	
First ,, 1864 . 300 Third ,, . 630	
bank rate of discount, 1844-64	275
BANKS (COUNTRY), amounts of promissory notes in circulation (in Great Britain):	
Fourth quarter, 1863 . 164 Second quarter, 1864 . 458	
First ,, 1864 . 301 Third ,, . 631	
BRAZIL, resources of (see <i>Heywood</i>)	245
principal events in its history since 1500	245
ministers, electors, deputies, &c.	245-6
population, races, &c.	247
slave trade, &c.	248-51
productions, exports, revenue, &c.	251-7

	PAGE
BRITISH ASSOCIATION, thirty-fourth meeting, at Bath, September, 1864 (Section F), Economic Science and Statistics—Papers read	580-81
Section F, address of the President (see <i>Farr</i>)	459
BROWN (Samuel). <i>On the Rates of Mortality and Marriage amongst Europeans in India</i>	566
Summary of conclusions arrived at in a previous paper on the mortality, &c., of officers in India	566-7
Mortality of married less than of bachelor officers, late period of marriages, and difference of age between husbands and wives	566-7
The most precise information to be gained from provident fund records	568
List of reports which are the most important sources for original facts	568-9
Bengal civilians, percentage rates of mortality of	569-78
— marriage-rate	573-5
Bombay civilians, mortality-rate	575
Madras civilians, mortality-rate	576
General conclusions; diminution in mortality of late years, especially in favour of married life, &c.	578
— high rates of marriage compared with peerage of Britain, the military service, &c.	578
Reference to the contents and recommendations of the "Reports on the Sanitary State of the Army in India"	579
BULLION AND SPECIE, gold and silver, imported and exported :	
Jan.—Dec., 1861-63 155 Jan.—June, 1862-64 453	
Jan.—March, 1862-64 296 Jan.—Sept., „ 626	
CAIRD (Mr.). Method of taking typical districts for agricultural statistics	276
CALCUTTA, 6,000 bodies burnt, and as many thrown into the river annually, and consequent noxious gases emitted there	355
CANADA. Population of, 1666-1738	85
emigrant route across the continent from, its favourable character	94-8
CAPITAL. <i>Annual Accumulations of, in the United Kingdom.</i> [From the "Economist"]	118
Enumeration of objects among which surplus income of this country is distributed	118
Schedules under which income tax is assessed, and tables showing increase in each, 1854-60 and 1843-53	119-22
Supposed amount of annual accumulations 130 millions sterling	121
Collateral evidences from poor and county rate assessments	123
Ditto, from expenditure on houses and railways	124-5
Ditto, from duty on fire insurance	126
CAVALRY, excess of in French army	5
CENSUS. Comparative cost of those for 1841, 1851, and 1861	274
CHADWICK (Edwin). Statistics of educational results	261
CHADWICK (Edwin). <i>Poor Law Administration, its Chief Principles and their Results in England and Ireland as compared with Scotland</i>	492
Principles of a compulsory poor law	492
— the evidence collected by the Poor Law Commission, in 1833, not inimical to the continuance of a poor law, but to its mal-administration	492
— necessary that the condition of the pauper should not be better than the independent labourer, and that the relief should be entire, not partial	493
Principles of in-door relief; the workhouse available for all cases	494
Condition of populations without compulsory relief for destitution	494
Uses of a poor law system as adjunct to a police system	494
— its application to the suppression of brigandage in Spain and Italy	495
Introduction of a poor law system into Ireland	495
— substitution of entire for partial relief of the able-bodied, &c.	496
Partial or out-door relief the exception in Scotland	496
Defects of poor law administration in England	496
— indirect application of out-door relief in place of wages by employers who were also guardians	497
— benefits of initiating extensive public works for the able-bodied	498
— abuses prevented by entire or in-door relief	498
Proposed classification of pauper children and others in separate establishments, and evils from its non-adoption	499
Concurrent action of police originally intended	500

	PAGE
CHADWICK (Edwin). <i>Poor Law Administration—contd.</i>	
Superior economy of paid and responsible administration, as exemplified in the new poor law organization and that of a proposed general police force .	500-501
Greater expense of the Scotch system of out-door relief, without poor-houses	502
Advantages of in-door relief as displayed in Ireland . . .	503
Preventives of pauperism, sanitary and educational, not intended . . .	503
CHILDREN, why healthy as infants, and unhealthy when past infancy in London	198-9
CHOLERA, mortality of, in 1849 in Salisbury	541
CIDER, analysis of, showing its small nutritive power	527
CIDER MANUFACTURE, quiet and unobtrusive character of	526
CIDER-TRUCK system in the West of England (see <i>Spender</i>)	526
COMMERCE of France, exports and imports, 1861-63	129-31
CORN, average weekly prices (with monthly and quarterly averages):	
Fourth quarter, 1863 . 162 Second quarter, 1864 . 456	
First ,, 1864 . 299 Third ,, . 629	
COTTON, imports of, 1861-63	132
exports from Calcutta, Madras, and Bombay, 1862-64	270
COTTON FAMINE, cost of, in relief to the poor	596
CRIME, statistics of, in Russia (see <i>Mitchell</i>)	369
statistics of, in Australia (see <i>Westgarth</i>)	505
in Australia as compared with England	506-8
increase of, in Australia from the gold fields	508-9
proportioned to destitution in England and Wales, 1843-63	519
CRIMINAL STATISTICS of Aberdeen for twenty years, 1843-63	413-21
CRIMINALS, proportion of to population, in Scotland in 1863, and daily number in prison	421
DEATH-RATE, non-improvement of, by our national sanitary measures	175-6
comparison of own with foreign countries, not much to our advantage	177
excessively low in Scotch insular districts	178
arguments in favour of using the male death-rate only in calculation	179
forms of calculation for finding	211-13
of children, comparative	181-4
ditto, comparison of female education with	185-6
ditto, in towns, &c.	194-8
see <i>Mortality</i> .	
DEBT (NATIONAL), of Brazil	256-7
DECIMAL SYSTEM, arguments in favour of	467-8
DISCOUNT, bank rate of, from 1844 to 1864	274-6
DISEASE in the army, return of sickness rates, 1863	434
among flocks in middle ages as high as 25 per cent.	74
DRUNKENNESS, excess of in Russia, from national custom of deep drinking on occasions of solemnity or merriment	373
DURHAM UNIVERSITY. Opening and extension of academical endowments in (see <i>Heywood</i>)	106
EDUCATION. <i>Statistics of Educational Results</i> , by Edwin Chadwick, C.B.	261
Difficulties in the way of obtaining information of the subsequent career of the children	261-2
Necessity and results of house to house visitation, for information	262
Evidence of the Rev. G. Fisher as to good effects of a higher standard of education at the Greenwich Hospital School	263
Ditto, the Royal Military Asylum, Chelsea	265
notice of the increase of, in England, from 1818 to 1861 (from 1 in 17 to 1 in 6)	410
of prisoners, committed in the county of Aberdeen	420
VOL. XXVII. PART IV.	2 U

	PAGE
EDUCATION— <i>contd.</i>	
(comparative) in 1862. Signatures of names at marriages:	
number in various towns	584-5
(MILITARY), cost of	19-21
ENGLAND, number, occupation, and status of foreigners in (see <i>Levi</i>) .	558
EURASIANS (Indo-European Christians of colour), on the mortality of (see <i>Tait</i>)	324
EUROPEANS in India, rates of mortality and marriage amongst (see <i>Brown</i>)	566
EXCHANGES (FOREIGN), quotations on London:	
Oct.—Dec., 1863 . 164 April—June, 1864 . 458	
Jan.—March, 1864 . 301 July—Sept., „ . 631	
EXPORTS, United Kingdom:	
Jan.—Dec., 1859-63 . 153 Jan.—June, 1860-64 . 451	
Jan.—March, 1860-64 . 294 Jan.—Sept., „ . 624	
FAIR (William). <i>Address as President of Section F (Economic Science and Statistics) of the British Association, at Bath, September, 1864</i>	459
Analysis of the province and divisions of statistical science	459-60
Extract from Sir G. C. Lewis's work on politics, on the value of a Govern- mental registration of social and political facts	461
Notice of Quetelet's work on comparative statistics	461
Progress of Governmental statistics in Spain, Italy and Russia	463-3
The stated population of Russia, British India and China quite conjectural still	463
Decline of the population of the Sandwich Islands	464
Notice of Strang's statistics of Glasgow	464
Origin of the Carlisle life table and its subsequent usefulness	464-5
Notice of Mr. Norman and M. Guerry as private statisticians	465
Enumeration of statistical reports, &c., now published by the Government offices	465
Want of agricultural statistics in England	466
Arguments in favour of decimal coinage and weights	467-8
Fallacies arising from non-attention to double or compound units in calculations	468-9
Usefulness of the hectar as the final land unit	470
Mechanical force of a country deduced from a unit of labour, its value, &c. .	471
Prediction of the future by the calculus of probabilities, and its connection with politics	471
Progress of free trade accelerated by statistics in different countries . . .	472
Assistance of statistics to sanitary reform	473
Survey of the states of the world, their populations and power, as illustrating the connection of statistics with politics	473-4
Great increase in number of possible combinations of powers as the number of states increases	475
Growing feeling in Europe against the existence of small states	475
The physical condition of slaves in the Southern States shown to be good from their rapid increase, and the equitable abolition of slavery a question of time	476
Notice of Malthus and his law of increase of population by geometrical progression	477
Notice of celebrated statisticians deceased during the year	478
FINANCE (French), admirable clearness and exactness of accounts in .	65-7
FIRES, excessive number of, in Russia, and supposed causes	369-70
FOOD, low prices of, in fifteenth century	70
FOREIGNERS, number, occupation, and status of in England (see <i>Levi</i>)	558
causes of the attractiveness of France and America to	559
in England, their disabilities confined to exclusion from Privy Council and Parliament	564
FRANCE. Statistics of the commerce of, value of principal articles imported and exported, 1861-63	129-31
excellent system of financial accounts in	65-7
notice of publications on the French military budget.	68-9
see <i>Armies</i> .	
FREE TRADE, its progress accelerated by statistics	472

	PAGE
GAIRDNER (Dr.), discussion on his propositions on the mortality of infants; shown to be unfounded	204-7
GEOGRAPHY, hypothetic character of that of the United States	99
GOLD FIELDS of Winnipeg and Saskatchewan	91-3
GREENWICH HOSPITAL School, statistics of the results of education at	263-4
HEALTH, state of the public :	
Quarter Dec., 1863 141	Quarter June, 1864 439
,, March, 1864 281	,, Sept., ,, 607
ditto, Scotland :	
Quarter Dec., 1863 149	Quarter June, 1864 447
,, March, 1864 289	,, Sept., ,, 616
HERBERT (Robert). <i>Statistics of Live Stock in the United Kingdom, 1853-63</i>	520
Rise in the price of meat in the last twenty years and its causes	520, 22
Number of beasts and sheep imported, and amount of home production in 1853 and 1863, showing no increase in the latter	521
Quarters from which London derives its supplies, and their probable amount	522-3
Failure of the large supplies to London from Pembrokeshire and Romney Marsh during the last twenty years	523
Early maturity of stock from crossing of breeds	524
Difficulties in England in the way of increasing the amount of stock	524
Changes in breeds, crosses, &c., which have taken place of late years	525
Conclusion that prices will continue high	525
HEYWOOD (James). <i>On the Opening and Extension of Durham University Academical Endowments</i>	106
The Act of 1832, Royal Charter of 1837, transference of estate for support of the University, amount of income, &c.	106-7
Recommendations and ordinances of the commissioners of 1861 disallowed by the Privy Council	107-8
Decrease in number of students from 1850 to 1863	109
Proposed alteration and reform	110-11
HEYWOOD (James). <i>Resources of Brazil</i>	245
Summary of principal events in its history, since 1500	245
Statement of the property qualifications, &c., of the electors, deputies and senators	245-6
Ministers, titles of nobility, &c.	246
Number and distribution of the population, intermixture of races, &c.	247
Progress of the Brazilian slave trade since the treaty of 1826	248
Internal slave trade from the north of Brazil to Rio de Janeiro	248-9
Unproductiveness of the national estates under slave labour	249
Prices of slaves in Brazil in 1862	250
Question of the practical slavery of the free Africans under the care of the Brazilian Government	251
Imports and exports, high import duties since 1844, &c.	251-2
Vessels and tonnage of the foreign and coasting trades	252-3
Productions, value of exports, prices of food, &c.	253-4
Revenue and expenditure, estimates of the expenditure, of the several ministries, &c.	254-5
National debt, its items, and guaranteed interest on railways	256-7
HIND (Henry Youle). <i>On the Commercial Progress and Resources of Central British America; the Lake Winnipeg and Saskatchewan Districts</i>	82
History of Central British America to 1858	82-6
— proceedings of the French from 1646 to 1763	82-4
— population of Canada, 1666-1738	85
— summary of important events since formation of North-West Company in 1783	86
Action of the United States' Government, Minnesota, Hudson's Bay Company, &c., up to 1863	86-8
Agricultural capabilities of the Red River and Saskatchewan districts	88-90
— number of acres, compared with the extent of Canada, showing excess of cultivable land in basin of Lake Winnipeg	89
Mineral wealth	90
— salt springs, iron ores, great lignite coal formation	90-91
Winnipeg and Saskatchewan gold fields	91-3
Communication with Central British America, practicable routes	93

	PAGE
HIND (Henry Youle). On Central British America—contd.	
Canadian emigrant's route across the continent	94
— continuous stretch of 1600 miles of country of a most favourable character for passage of emigrants	95
Comparison between British and United States' routes across the continent	96
— comparatively desert character of one-third of the United States to the west of the 100th degree of longitude	96 (<i>note</i>)
— superior fertility and peculiar advantages of the Sasaktochewan Valley in Central British America	97
— comparative altitudes of the passes of the Rocky Mountains, in the United States and British territory, and favourable physical conformation of the latter	98 (<i>and note</i>)
— hypothetic character of United States geography and cartology, and its disastrous consequences	99
— poor vegetation of the plains of the Mississippi valley	99
Communication between Canada and Central British America	100
— no insuperable objection to ditto from physical features, as supposed	100
Communication <i>vid</i> Hudson's Bay	100
— Lake Winnipeg within a week's journey of the ocean	101
No other area for extensive settlement in British America besides this district	101
Progress of Minnesota, and its large contribution to the Federal army	102
Dakotah and Nebraska, their soil against their assuming much importance	103
Indian population, their small numbers and probably tractable character	103
Available agricultural land in British America twice the entire area of the United Kingdom, with a population of only four millions	103-4
Summary of the advantages and importance of the district	104-5
HODGE (William Barwick). On Shipwrecks in the Royal Navy	234
The facts of the paper from James' Naval History, and Gilly on Shipwrecks of the Royal Navy	234
Analysis of Tables I and II	234
Annual percentage of loss, 1793-1815	235
Loss of men in the Royal and Mercantile Navies, as 28½ and 56½ per cent. of the crews of wrecked vessels	235
Proportion of crews lost in different classes of vessels	236
Proportion of vessels lost in each quarter of the year	237
Vessels lost, 1815-57, great decrease compared with former period	237
Loss of men much the same proportion as in former period	238
The diminution of losses partly ascribable to Sir R. Seppings's system of diagonal bracing	238
Principle of lengthening the bow in vessels, and superior sailing qualities secured by it	238 (<i>note</i>)
Serious loss of vessels from corrosion from coppering the iron-bolted vessels captured from the French	239
Table I. Number of cruisers in the Navy, 1793-1815	240
— II. Number of ships of the Navy accidentally lost, 1793-1815	242
— III. Number of vessels of the Navy lost, 1816-57	244
HOSPITALS. Statistics of Metropolitan and Provincial General Hospitals for 1862.	401
Tables. General results, and medical and surgical cases	402-3
— average number of patients and mean residence, rate of mortality	404
— admissions and deaths in general and special wards	405
— death-rate in St. George's Hospital, 1827-62	405
— the same series of tables for county hospitals	406-9
HOUSE DUTY (INHABITED), in 1855 and 1860, showing increase	124
IMPORTS, United Kingdom :	
Jan.-Nov., 1859-63	152
Jan.-Dec., „	292
Jan.-Feb., 1860-64	293
Jan.-May, 1860-64	450
Jan.-Aug., „	623
INCOME, surplus, of this country, enumeration of objects among which distributed	118
INCOME TAX, schedules under which assessed, and tables showing increase in each, 1854-60 and 1843-53	119-22
INDIA. Why India is in the state it is (statistics illustrative of its present financial condition and prosperity)	268
— abstract of revenues and charges of India for 1861-65	272
— relative number of Eurasians in	325
— history of Portuguese, Dutch, and French settlements in	325-7

	PAGE
INDIA— <i>contd.</i>	
rates of mortality and marriage amongst Europeans in (see <i>Brown</i>)	566
on the mortality of Eurasians [Indo-European Christians of colour] (see <i>Tait</i>)	324
INSURANCE (FIRE) duty on, 1843-62, showing annual increase	126
JEULA (Henry). <i>A Few Statistics relating to Shipping Casualties [in the Mercantile Navy], 1856-62</i>	222
Vessels and tonnage of British shipping in 1862	222
Average annual total of losses, and monthly, quarterly, &c., averages for all parts of the world	223-4
Ditto, ditto, for the coasts of the United Kingdom	225-6
Averages of the cargoes of the vessels lost on our coasts	226-7
Average percentage of losses on different parts of the coast	227-8
Ditto, of description, sizes and ages of vessels	228-30
Average of partial and total losses, and rates of casualty per voyage	230-31
Value of property lost upon our coasts	231
Question as to the relation between the increase in casualties, and the percentage decrease in number of men employed to the tonnage	232
Decrease in average number of lives lost in the casualties	232-3
LAND, the produce of, two and a-half times less in the middle ages than now	74-5
enormous comparative rise in price of, since then	77
rise in value of agricultural, since repeal of corn laws	388
LEVI (Leone). <i>On the Number, Occupation, and Status of Foreigners in England</i>	558
Rapidly increasing intimacy of the European nations	558
Proportion of foreigners to native-born subjects in England, much less than in France and America, but more than in Spain	558-9
Causes of the attractiveness of France and the American States to foreigners	559
Influence of the English abroad greater than of foreigners in England, from their being of a higher class	560
Comparative nationalities of foreigners in England, France and the American States	560-61
Foreigners in England chiefly residing in London, and their proportions compared with Paris and New York	561
Enumeration of the employment of foreigners in this country	562
Average number of foreigners among our criminals	563
Benefits to a country of a free admission of the foreign industrial element	563
Injudicious enactments against, and ill-treatment of, foreigners in this country in former times	563-4
Disabilities of foreigners now confined to exclusion from the Privy Council and Parliament	564
Instruction to be gained from the study of the peculiar idiosyncrasies of each nation	565
LEWIS (Sir G. C.), extract from, on Governmental registration of facts	461
LIFE TABLES (CARLISLE), origin of, and subsequent usefulness	464-5
LITERATURE (CHEAP), diffusion of in England (extracts from Mr. E. Baines's speech)	410
LIVE STOCK, statistics of, in the United Kingdom, 1853-63 (see <i>Herbert</i>)	520
quarters from which supplies reach London, and their partial failure	522-3
early maturity of, from crossing of breeds, changes in breeds, &c.	524-5
LONDON, mortality of compared with Paris (see <i>Tite</i>)	479
LUMLEY (William Golden). <i>The Statistics of the Roman Catholics in England and Wales</i>	303
Statement of Cardinal Wiseman, as to the great increase of Roman Catholicism in England since 1826	303
Number of priests to churches, and limited nature of the institutions called convents (schoolmistress' house)	304
Comparative accommodation for worshippers in Church of England, Protestant Dissenters' and Roman Catholic churches, in 1851	305
Comparative numbers of clergymen, Protestant ministers and Roman Catholic priests	305
Comparative increase of Roman Catholic chapels not greater than those of Nonconformists, 1838-61	306-7

	PAGE
LUMLEY (William Golden). <i>Roman Catholics in England—contd.</i>	
Localities of the Roman Catholic churches and chapels in 1851 and 1861 . . .	307-8
Marriages registered in England, and ratio of Roman Catholics to totals . . .	309
The increase to 1851, $2\frac{1}{2}$ per cent., but to 1861 only $\frac{1}{2}$ per cent.	310
The larger increase accounted for by great immigration of Irish and foreigners	310-11
Comparative numbers of Church of England, Roman Catholic and other paupers, and distribution of the Roman Catholics	311-12
Number of new schools of Church of England, Roman Catholics, &c., and number of latter in each county	313-15
Ratio of Roman Catholic convict prisoners, 1862-64	316-20
The Roman Catholics one-twentieth of population and one-fifth of prisoners in gaols	320
Distribution of foreigners and Irish in groups of counties	321
Statement of Roman Catholics and members of Established Church in Ireland, showing that the supposed increase of the Roman Catholic Church in England is only from a shifting of its members	321-2
Proportion of Roman Catholics and their chaplains in the army	322
MALTHUS, notice of his law of increase of population by geometrical progression	477
MANCHESTER and Salford, statistics of Sunday schools in	421
MARRIAGE, rates of, amongst Europeans in India (see <i>Brown</i>)	566
<i>see Registration.</i>	
METEOROLOGICAL TABLES :	
Dec. quarter, 1863 . . . 147 June quarter, 1864 . . . 445	
March ,, 1864 . . . 287 Sept. ,, . . . 613	
METEOROLOGY of England and Wales, remarks on the weather by James Glaisher :	
Dec. quarter, 1863 . . . 145 June quarter, 1864 . . . 443	
March ,, 1864 . . . 285 Sept. ,, . . . 611	
METEOROLOGY and weather, Scotland :	
Dec. quarter, 1863 . . . 149 June quarter, 1864 . . . 447	
March ,, 1864 . . . 289 Sept. ,, . . . 617	
METEOROLOGY and weather, Ireland :	
September quarter, 1864	619
MICHELL (T.). <i>Statistics of Crime in Russia</i>	369
Crimes and accidents	369-71
— excess in number of fires, and the supposed causes	369-70
— premature deaths caused by crime or accident, 59 per diem, with analysis of causes	370-71
Consumption of spirits; successful financial result of the abolishment of the brandy-farm system	372
— excess of drunkenness in Russia, from national custom of deep drinking on all occasions of solemnity or merriment	373
Table of crimes and accidents in Russia during January-April, 1863	374-77
MIDDLETON (A. B.). <i>The Sanitary Statistics of Salisbury; the Years 1841-49 and 1856-64 compared</i>	533
Local peculiarities: geographical position, area, population, &c.	533-4
— the Close, the Avon and other rivers, character of subsoil, &c.	534
— canals or water-courses in the streets, their abuse as sewers, Act against their use by butchers, temp. Henry VII, &c.	535-6
Past sanitary state, notice of its insalubrity by old Burton	537
— visitations of plague, in 1579, 1604, 1627, and 1666; excellent conduct of John Ivis, mayor in 1627	537-40
— high rate of mortality	540
— badness of the water used, and consequent diarrhoea, &c.	540-41
— mortality of the cholera in 1849	541
Works for drainage and water supply: disgusting character of the canals at night, and heaps of filth	541-2
— Sir J. Harrington's "Metamorphosis of Ajax" (a jakes)	542
— contamination of the wells, saturation of the subsoil by the canals, &c.	542-3
— remedial drainage works adopted, and obliteration of the canals	543-4
— waterworks: reservoirs, daily quantity raised, cost, quality of the water, &c.	544-5
Present condition of the city: great improvements following the drainage system	546

	PAGE
MIDDLETON (A. B.). <i>Statistics of Salisbury—contd.</i>	
Present condition: decrease in mortality since ditto (from 27 to 14 in the 1,000)	547-8
— diseases and causes of death before and since drainage	549-50
— deaths of children, ditto	550-51
— formation of a museum of articles from the sewers	552
Question as to the effects of sanitary reform in prevention of epidemics and reduction of mortality	553
Objections to the theory that poverty, and not atmospheric stench, is the true cause of disease	554
Rivers not injuriously polluted by the sewage from small towns	555
Ditto, shown by that of Salisbury into the Avon	555-6
Benefits of sanitary reform in its hygienic effects	556
MILITARY ASYLUM (ROYAL), statistics of the effects of education at . . .	261

ROGERS (Rev. J. E. T.). <i>On a Continuous Price of Wheat for 105 Years, from 1380 to 1484</i>	70
The period before the Reformation not one of social barbarism, as by some supposed	70
The prices in this paper from the farming accounts of Heyford Warren, Oxon	70

	PAGE
ROGERS (Rev. J. E. T.). <i>On a Continuous Price of Wheat—contd.</i>	
Low price of food during the period	71
Value of the coinage, and the prices of common labour during the same	72
Wheat the habitual food of the labourer in the middle ages, oats being used principally for cattle	73
Rarity of rye, and difficulty of obtaining evidence of its price	73
Price of labour 25 per cent. higher in London than in the country	73
Disease among flocks in middle ages, as high as 25 per cent.	74
Evidence of great agricultural economy among our forefathers, but the produce of land 2½ times less than the modern yield	74-5
Cattle and sheep poor and small in those times	76
Population of England and Wales in the fifteenth century 1½ to 2 millions	76
Formula for judging the relative cost of land to price of labour, profit, &c.	76
Enormous comparative rise in the price of land since those times	77
Gradual commutation of labour tenures for payment of money rents	77-
Rise of the class of small freeholders	78
The mass of the community little affected by the wars of the Roses	79
Weight of silver in the shilling in the fifteenth century	79
Table, prices of wheat, 1380-1484, &c.	80
— price of wool, 1376-1433	81
ROMAN CATHOLICS, statistics of, in England and Wales (see <i>Lumley</i>)	303
increase of in England, accounted for by immigration of Irish and foreigners	310-11
in England, one-twentieth of the population, and one-fifth of the prisoners in gaols	320
RUSSIA. The Russian budget for 1864 (article on, from the "Economist")	426-34
statistics of crime in (see <i>Michell</i>)	369
excess of drunkenness in	373
RYE, rarity of its culture in England	73
SALISBURY, sanitary statistics of, 1841-49 and 1856-64 (see <i>Middleton</i>)	533
local peculiarities of	533-6
works for drainage and water supply, and previous character of the canals, &c.	541-5
present condition of the city, comparative mortality, &c.	546-52
SANITARY MEASURES (National), non-improvement of our death-rate by	175-6
SANITARY REFORM, prevention of epidemics and other hygienic effects of	553-6
SANITARY STATISTICS of Salisbury, 1841-49 and 1856-64 (see <i>Middleton</i>)	533
SARGANT (William Lucas). <i>On Certain Results and Defects of the Reports of the Registrar-General</i>	170
Summary of principal conclusions arrived at	170
Cases in which the objects proposed by registration have been attained	171
Explanation of Table A	173-186
— recapitulation	186
— of Table B	187-202
— recapitulation	202
— of Table C	204-7
Errors of numbers from the adoption of poor law districts	173
Density of population to acres, an imperfect test of over-crowding	173
Necessity of taking ages into account in comparing the deaths in different places, especially as to number of infant deaths	173-4
Non-improvement of the death-rate by our sanitary measures, drainage, and other national efforts for purification	175-6
Superior longevity of the country over town, more due to work in the open air than to country air	177
Comparison of our death-rate with that of foreign countries, not much to our advantage	177
The lower Scotch longer-lived than the English, except in the towns.	177-8
Excessively low rate of the Scotch insular districts (14.6 per 1,000)	178
Excess of females in places where persons of independent means congregate (34 to 73 per cent.)	179
Arguments from the "disturbing element" of domestic servants, in favour of using the male death-rate only in calculation of mortality	179
Variations of male death-rate in different countries	179-80
Inaccurate assertions as to excessive death-rate of young children: the causes of the erroneous calculations explained	181
Comparative death-rates of children in different counties	182-4

	PAGE
SARGANT (William Lucas). <i>On Certain Results and Defects of the Reports of the Registrar-General—contd.</i>	
Question as to the little effect of high or low wages on the mortality of farm labourers	184-5
Comparison of female education with infantile death-rates in different places	185-6
Summary of the above, pp. 172-86	186
Deficiencies in the Registrar-General's Reports, from the treatment of towns too much as elements only of counties	187-8
Consequent differences between his population numbers and those of the census, with examples	188-9
Case of Birmingham, as illustrating the difficulty of finding the true death-rates when districts are given in place of towns, &c.	189-91
Number of persons to the acre, in each of our largest towns	192
Number of persons in a house in various towns	192
Improvement of death-rates in the decennial periods, 1841-60	193
Male death-rate and excess of females over males in towns	193
Comparative death-rate of children in towns, and errors in excess from mis-calculations	194-8
Explanation of the author's mode of calculation to correct those errors	194-7
Explanation why infants are healthy, and children past infancy unhealthy, in London	198-99
Statistics of deaths of children in Bethnal Green and the City, showing the chief want to be open-air play places	199-200
Child mortality in Liverpool much higher than in London	201
Relative child mortality of Birmingham, Plymouth, &c.	201
Summary of the above, pp. 187-202	202
Dr. Gairdner's propositions, "that unhealthy places are more fatal to infants than adults;" "that agricultural counties are fatal to infants," and "that the west-end of London has an unduly high death-rate of infants," discussed and shown to be unfounded	204-7
Changes wanted in the Registrar-General's Reports: prefatory instructions for inquirers, fuller index, state of education in towns, &c.	207-8
— need of a decennial volume as epitome of results after each census	208
— various points in which instructions are wanted	210-11
Forms of calculation for finding death-rates	211-13
Appendix of tables: A, vital statistics of each county in 1841-50 and 1851-60	214-17
— B, vital statistics of principal cities and towns, 1841-50 and 1851-60	216-19
— C, vital statistics of the metropolis	220-21
SCHOOLS, SUNDAY, in Manchester and Salford, statistics of	421
SEXES, inequality of, in the Australian colonies	518
SHIPPING (British), vessels and tonnage in 1862	222
foreign trade, United Kingdom:	
Jan.—Dec., 1860-63	154
Jan.—June, 1861-64	452
Jan.—March, 1861-64	295
Jan.—Sept., „	625
superior sailing qualities of, from lengthening their bow	238 (note)
SHIPPING CASUALTIES in mercantile navy, a few statistics relating to (see <i>Jeula</i>)	222
reported in Lloyd's Register (with summary): Oct. — Dec., 1854-59	156-9
SHIPWRECKS in the Royal Navy (see <i>Hodge</i>)	234
ditto, tables	240-44
diminution of, partly ascribable to Sir R. Seppings's system of diagonal bracing	238
SILVER, weight of, in the shilling in the fifteenth century	79
SLAVE TRADE of Brazil	248-51
SLAVERY in the Southern States, its equitable abolition a question of time	476
SLAVES in the Southern States, their physical condition shown to be good from their rapid increase	476
prices of, in Brazil, in 1862	250
SOLDIERS, comparative cost of each (two French at a little more than one English)	2
SPENDER (Edward). <i>On the "Cider-Truck" System in some parts of the West of England</i>	526
Quiet and unobtrusive character of the cider manufacture	526
The labourers paid from 20 to 50 per cent. of their wages in cider	526, 529
Comparative analysis of cider, showing its small nutritive power	527

	PAGE
SPENDER (Edward). <i>On the "Cider-Truck" System—contd.</i>	
Noxious character of the cider given to the labourers	527
Excessive quantities drunk at harvest time, and their deleterious effects	528
Improvident results of the excess of wages received in cider	529-30
The system acquiesced in by the older labourers, and other difficulties in reforming its evils	530-31
Advantages of the commutation of cider into money payments	531-2
STATISTICAL ABSTRACTS, international, with corresponding details, utility of	114
STATISTICAL CONGRESS (INTERNATIONAL). <i>Reports of the Official Delegates from England at the Meeting at Berlin, September, 1863</i> (continued from vol. xxvi, p. 419)	112
Mr. Valpy's report: list of the publications of the statistical department of the Board of Trade, and analyses of their contents	112-15
Utility of international statistical abstracts, with corresponding details	114
Prejudice against agricultural statistics, and its probable removal	110
STATISTICAL SCIENCE, analysis of its province and divisions	459-60
STATISTICAL SOCIETY :	
anniversary meeting and report (thirtieth), 1863-64	165
list of papers read	165
abstract of receipts and payments	169
proceedings, ordinary meetings, first to eighth, 1863-64	582-3
STRANG's statistics of Glasgow, notice of	464
STREET IMPROVEMENTS of Paris, and their cost (see <i>Tite</i>)	378
STREETS, a loss of 60 per cent. usually incurred in the making of new ones in a city	378
STRIKES in the manufacturing districts, history of [from the "Manchester Guardian and City Press"]	587
the Staffordshire strike, 1864, its causes, effects, and pecuniary sacrifice	587-90
the Leeds and Low Moor lock-out; pecuniary cost	590
strike at the Durham collieries, 1863-64	593
SYKES (Colonel W. H.). <i>Comparison of the Organization and Cost in Detail of the English and French Armies</i>	1
Introductory, as to the comparative cost of each soldier (two French at little more than one English)	2
Table of effective strength of each army	3
Excess of artillery in the English, and cavalry in the French, army	4-5
Details of the composition and numbers of French and English regiments, &c.	4 (note)
Total charge of each army and calculation of pay and cost per head	6-7
Administration of the army, comparative cost	7
French <i>etats-majors</i> and English general staff	8
Pay of infantry, cavalry, artillery, engineers, &c.	9-10
Army hospital corps and medical establishment	10
Commissariat officers, provisions and forage	11
Rations and clothing	12-13
Cost of barracks; martial law	14-15
Manufacturing department; small arms and gunpowder	16-17
Remount, gun factories	18
Cost of military Education	19-21
Miscellaneous charges, recruiting dotation, &c.,	21-25
Appendix of <i>tables</i> :	
— I to XVII, French army	26-55
— XVIII, comparative, of number of officers and men in the two armies, and respective cost	56-61
— XIX, comparative, of French and English military pay	62-3
— XX, statement of method of applying grants of public money in France, and system of auditing public accounts	64-9
Minute and searching control in France over details of expenditure	64
Admirable clearness and exactness of French financial accounts, and checks on improper estimates, &c.	65
System of additional votes of money	65
Jealousy and watchfulness of the <i>Cours des Comptes</i> to prevent over-expenditure	66
Difference of the English and French systems, that the essential point in the latter is the incurring of liability, in the former the paying away of monies Examination of measures, &c., by the <i>Conseil d'Etat</i> , before their submittal to the Legislature	66-7
Notice of various publications on the French military budget	67
	68-9

	PAGE
SYKES (Colonel W. H.). <i>Price of Edibles and Potables in A.D. 1506.</i>	258
"Bill of fare for fifty people of the Company of Salters, 1506," with analyses and comparison of the prices with those of modern times	258-9
— see <i>Valentine</i> (statistics of Aberdeen).	
TAIT (P. M.). <i>On the Mortality of Eurasians</i>	324
Previous papers chiefly on European mortality in India	324
Calculation of relative number of Eurasians in India	325
Historical Statement of the Portuguese, Dutch and French settlements in India, and colonies of other nations	325-7
Explanation of the term "Eurasians," as Christians of colour in India, of mixed European and Asiatic parentage	328
The term East Indian applied to all Christians of colour affecting the dress of Europeans	328
Prejudices against them now passing away	329
Records of the Uncovenanted Service Family Pension Fund; abstracts showing rate of mortality in, &c.	330-42
Remarkable results of ditto, showing the rate of mortality to be less among Eurasians than other Christians in India	339
Tables of decrements, mixed class and Eurasians	343-50
Mortality per cent. per annum amongst various classes	351-3
Marked improvement in mortality of European military officers in India, as shown by Mr. S. Brown's "Madras Military Fund Report"	353-4
Great contrast in excessive mortality of non-commissioned officers and men, shown by the "Sanitary Commission"	354
Careful registry of deaths of the native population of Calcutta by the police 6,000 bodies burnt, and as many thrown into the river annually in Calcutta, and consequent foul effluvia and noxious gases emitted	355
TITE (William, M.P.). <i>On the Paris Street Improvements and their Cost</i>	378
A loss of 60 per cent. usually incurred in the making new streets in the heart of a city	378
Enumeration and progress of the remarkable Paris improvements, and their supposed cost	378-9
Enormous liabilities incurred by the city of Paris	380
Tables of cost and returns in the operations of the Halles Centrales, Rue de Rivoli, and Boulevard Sebastopol, showing the amount of the losses (about 50 per cent. on gross outlay)	380-83
Objectionable height of the side streets, above the surface of the new Boulevards Malesherbes and Sebastopol	383-4
Expensive character of the new streets, partly from the replacing of densely crowded parts by open spaces	384
Ditto, because the operation is really that of converting inhabited house-rent into ground-rent only	385
Table of the ordinary and extraordinary receipts of the city of Paris	386
Compromising character on the city's credit of a continuance of these improvement operations	387
TITE (William, M.P.). <i>On the Comparative Mortality of London and Paris</i>	479
Uncertainty as to the rates of mortality in Paris from the forms in which drawn up, and from the interference and delays of different officers	479-80
— ditto, from the changes of the limits of the city, the returns of the Census of 1861, &c.	480-81
The period 1853-62 selected as most free from the disturbing causes, revolution- ary, &c. of previous periods	481-2
Summary of the superior hygienic conditions of Paris over those of London	482
Average rate per cent. of deaths, in Paris 2.78 and London 2.39	483
Greater resort of people from the <i>banlieue</i> of Paris to the hospitals, balanced by the number of Paris children sent to die elsewhere	484
Greater crowding in the houses of Paris, a cause of excess of mortality	485, 490
Hygienic conditions of Paris houses very defective, with bad smells, &c.	485-6
The division of property in France, one cause of crowding in town districts	486 (<i>note</i>)
Defective drainage and retention of cesspools under houses in Paris	487-8
Causes of the insufficiency of the water supply, and want of high service	488
Absurdly small size of the vessels used for purposes of cleanliness	489
Decreased mortality in Paris since the recent improvements	489
Changes in the forms of fatal diseases since ditto	490
General conclusions, agreeing with those of M. Legoyt	491
TRADE of United Kingdom, exports and imports, 1861-64	{ 151, 291 449, 622
see <i>Exports, Imports.</i>

VESSELS, see <i>Shipping</i> .	
VICTORIA, census of religious sects in	266
VITAL STATISTICS, <i>tables</i> of: counties, cities, and towns, 1841-60	214-19
ditto, metropolis	220-21
WAGES, rise of, in India, since commencement of railways there	270
of labour, 25 per cent. higher in London than in country in fifteenth century	73
little effect of high or low, on mortality of farm labourers	184-5
WARS OF THE ROSES, the mass of the community little affected by	79
WATERLOO BRIDGE, traffic statistics of, number of foot passengers, and total receipts, 1818-63	127-8
WESTGARTH (William). <i>The Statistics of Crime in Australia</i>	505
Area and population of the seven colonies of Australasia	505
Local circumstances affecting crime	506
— agricultural character of South Australia, and effects of gold discoveries in the other colonies	506
Crime in Australia as compared with England	506
— transportation the cause of the average of crime being greater in Australia	506
Crime and climate	507
— smallest ratio of crime in Queensland, and highest (except West Australia) in Tasmania and New South Wales	507
Crime in Australia greater than in England	507
— cost of police and prisons, seven times as much, and ratio of commitments nearly twice as great	507-8
Large ratio in Victoria, the causes, its position between New South Wales and Van Dieman's Land, and the influx of the convict population to the gold fields	508
Increase of crime in New Zealand from the Otago gold fields	509
Retrospect of the several colonies; their improving condition with the cessation of the convict system	510-12
Case of West Australia; comparative number of the convicts and the free class; excess of the former	512-14
— calculation of number of offences, showing nearly every second man to be a yearly offender against society	515-16
Appendix A. Opposition to transportation and defensive legislation of the colonies	517-18
— B. Inequality of the sexes in the Australian colonies	518
— C. Crime proportioned to destitution in England and Wales, 1843-63	519
